DRIVING DIRECTIONS FROM ROUTE 25A

IF YOU ARE USING A GPS, PLEASE NOTE: You must type in the address exactly as it is written above or you will end up in a different location.

FROM QUEENS & NASSAU COUNTY ON 25A

Take 25A *east* past Route 107 (in Brookville). Continue through Muttontown, and after 3 miles you will pass Route 106 (in Oyster Bay). Continue for approximately 4 more miles through Syosset and Laurel Hollow. As you see signs for Cold Spring Harbor, you will pass the Cold Spring Harbor Laboratory on your left and the Cold Spring Harbor Fish Hatchery on your right. At the intersection for Route 108, make a *right* at the light. Continue to follow the sign for Route 108, which *bears to the right again*. Then follow “FROM ROUTE 108” below:

FROM SUFFOLK COUNTY ON 25A

Take 25A *west* through the villages of Huntington and then Cold Spring Harbor. After going through Cold Spring Harbor (where 25A is called “Main Street”), you will see the water of the harbor on your right. Start looking for signs for Route 108. At the intersection for Route 108, make a *left* at the light, then a bear quickly to the *right* as you continue to follow the sign for Route 108. Then follow “FROM ROUTE 108” below:

FROM ROUTE 108:

Stay on Route 108 until it ends 1.5 miles later. At the light, you will see the parking lot of the Cold Spring Harbor LIRR station in front of you. Turn *right* onto Woodbury Road and see the sign that welcomes you to Nassau County, Town of Oyster Bay, Woodbury. Don't speed up too much because you will make an *immediate left* onto East Gate Drive. There are tennis courts just before the turn and also a green sign that says "Cold Spring Hills" to mark the turn onto East Gate Drive. Go up a hill and over the railroad tracks. Continue up the hill until you get to a stop sign. This is the intersection with Cold Spring Lane. The house is directly in front of you (tan wood shingles and brick exterior with white trim) Make a slight left and then an immediate right into the driveway. It is number 64 East Gate Drive. Come part of the way up the driveway and turn right to park in the circular driveway. *Please park on the right edge of the circular driveway as far forward as you can. Make sure there is enough clearance for cars to pass you on the left to access the exit, as we must keep the entrance and exit fully clear at all times. If there is a car already there, park directly behind it. Please do not park by the garage.* Come up the curvy brick walkway to the office entrance, in between the garage and the house. There is no need to knock; just come right into the waiting room and have a seat. I will call you in at the time of your appointment.
